Medical Assistant Training Program

The Medical Assistant Training Program prepares trainees for a career that pays a living wage with benefits. Area doctors, hospitals, insurance companies, dentists and clinics are now hiring medical office assistants, medical secretaries, medical records clerks, insurance billers and hospital admitting clerks. Key components of the program include: 1) intensive hands-on training, five days a week, with an average completion time of 24 weeks; 2) practice in a life-like medical front office with medical software; 3) student placements with area employers to provide additional on-the-job experience; 4) job placement help offered to program graduates.

Medical Assistant Training Program

This Medical Assistant Training Program offers 36 weeks of training (day, afternoon or evening) for those students who desire knowledge and skill development in both administrative front office and clinical back office. The program includes 160 hours externship in a medical facility in order to meet the requirements for testing as a Nationally Certified Medical Assistant. Job placement assistance is available to all trainees. Financial aid is also available.
